## Dual cooling system
Each of two cooling fans ensures the best quality and stability of printing performance
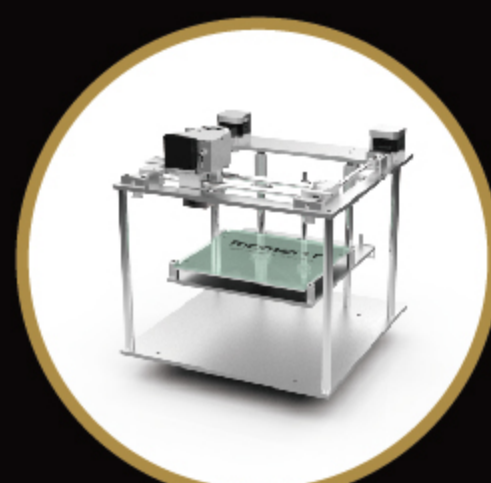

Moment's Special Nozzle
Moment's patented special nozzle solves clogging problems that previously occurred
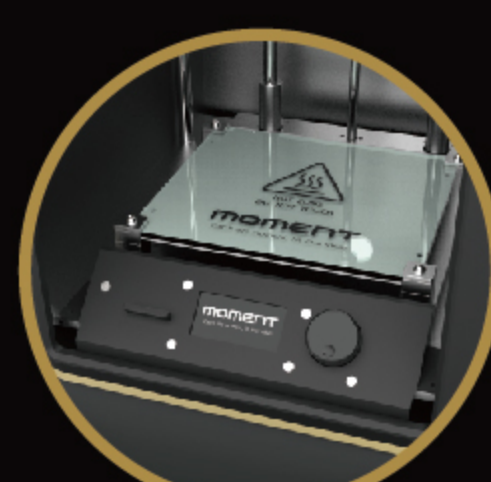

Strong Aluminum Frame
A strong aluminum frame minimizes vibration and maximizes printing performance

Minimized Noise
Absorbing materials installed in the case and the front door minimize noise generated during printing
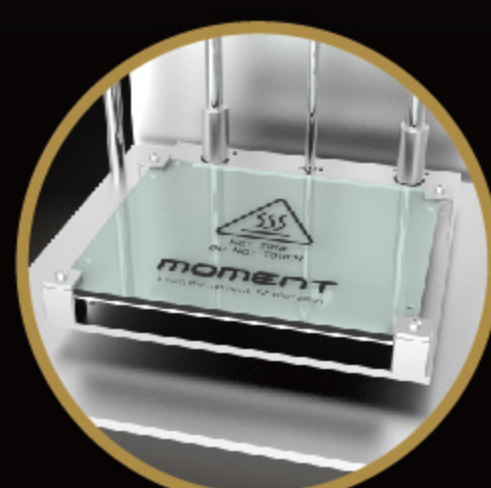

Simple and Easy
The printer instantly recognized files in a SD card without connecting to the computer

One Touch Jog Dial
Convenient adjustment of temperature, speed and other functions without complicated control

Tempered glass
Specially-made tempered glass and heating bed enable easy and direct printing without additional sticking materials

Plug & Play
No need for setup to use the printer. All users can print immediately by plugging in a filament

Software Offered

SIMPLIFY3D

Easy and smart software Simplfy3D included in the product will satisfy a wide range of users from beginners to professionals

Fixed level build plate frees customer from previous leveling process
Moment's special leveling system makes a regular adjustment unnecessary for customers

Moment technologies ensure ultra-high precision for manufacturers, designers and dental technicians
A minimum tolerance and layer height(0.02~0.3mm) output can be printed

PLA
RED   ORANGE YELLOW GREEN BLUE
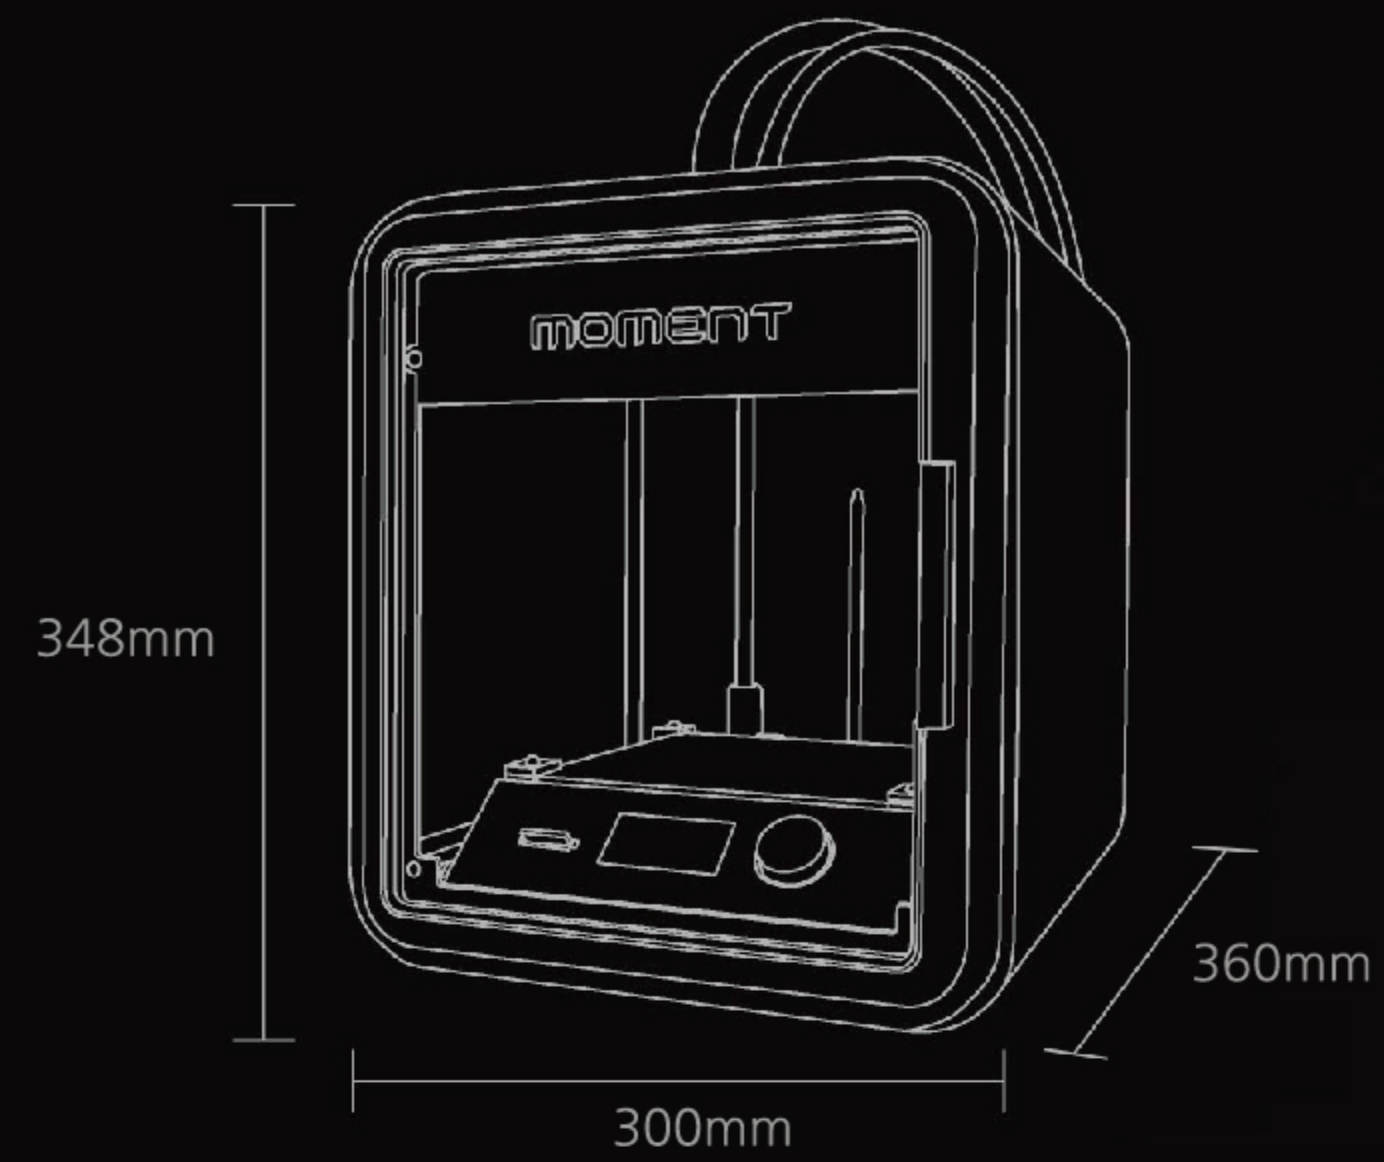

GREY   BROWN   BLACK NATURAL WHITE

ABS
RED   ORANGE YELLOW GREEN PURPLE

IVORY   BLACK   NATURAL   WHITE

moment 5

348mm

360mm

300mm

	Product Dimensions	300mm x 360mm x 348mm
Product information / Electrical	Product Weight	11.5KG
	Product Materials	Aluminum / ABS
	Shipping Weight	16.5KG
	Input	100-240V~50/60Hz
	Output	24.0V - 6.25A
	Print Technology	Fused Filament Fabrication (FFF)
Print	Print Volume	145mm x 145mm x 160mm
	Nozzle Diameter	0.4mm
	Filament Diameter	1.75mm
	Print Speed	30~150mm/sec (full speed 300mm/sec)
	Print Quality	0.02~0.3mm
	Print Accuracy	11 micron in X,Y 2.5 micron in Z
	Leveling	Moment leveling system
	Build Platform	Heat bed and glass (Up to 110 C)
	Extruder	Single extruder
	Cooling System	Fan air system
	Filament materials	PLA / ABS / Flexible / Wood / etc.
Software	Software bundle	Full license Moment Simplify3D
	Operating Systems	Windows / Mac OS
	Support File types	G-code, stl, obj
